WS系列超重型越野车底盘

#### WS2600超重型越野车底盘 WS2600 super heavy-duty off-road chassis

- ●进口大功率道依茨柴油机,高低双档分动器,动力强劲。
- ●进口ZF全自动变速箱, 匹配性良好。
- ●断开式驱动桥带有轴间和轮间差速器,越野性能优良
- ●超宽断面轮胎和中央充放气技术,通过性优良。
- ●高度可调的油气悬架,特别适用于敏感装置的运输。
- ●前后多组转向集成技术,机动灵活。
- ●在-40℃~50℃条件下工作,环境适应性优良。
  - Imported high-power DEUTZ diesel engine uses highlow double gear transfer case which has strong power.
  - Imported automatic transmission case of ZF, well matched with the chassis.
  - The divided axle has differential gears between the axles and bridges which has great through off-road performance.
  - Over-wide cross section tires and central automatic air inflating&deflating system have well traffic ability.
  - Varying height hydro pneumatic suspension is especially applied to transport the sensitive installation.
  - Front and back multiple steering integrated technology is more mobility and flexibility.
  - Works in -40°C ~ 50°C condition which has well acclimatimation.
